

MEDIA RELEASE

IT WAS A DECEMBER TO REMEMBER AT LIVEWIRE

Livewire Productions had a December 2009 production slate like no other, we completed work for major corporate clients including, Xstrata Copper, Origin Energy, Cancer Council Queensland, Babes in Business, Living with Lead Alliance, National Breast and Ovarian Cancer Centre, Energex and the Nine Network Australia.

Livewire produced some of our best work to date that ranged from video news releases, web videos and corporate productions to television commercials.

For many December was about looking back on the achievements of 2009, Livewire produced corporate snapshots for, Babes in Business, Cancer Council Queensland and the National Breast and Ovarian Cancer Centre. The snapshots used a combination of still photos and graphics custom designed with each clients branding. The snapshots were sent via mass email and shown at end of year functions.

For Origin Energy it was about looking back on internal achievements and looking ahead to 2010 and the exciting developments to be made in their business streams. Livewire produced 'Origin Upstream – Building the Future' an 8 minute DVD that also contained components delivered in digital formats for internal (intranet) distribution.

For Living with Lead it was about re-enforcing health messages concerning how to live safely in the Mount Isa community through television commercials. We also shot film vision for all media outlets of Xstrata Copper's Ernest Henry Mine in full High Definition.

December 2009 set the standard for 2010 and what promises to be a defining year in Livewire history.
