Livewire completes Mass Distribution Video for the Spastic Centre NSW

Livewire Productions recently completed a flash based rich media presentation for The Spastic Centre New South Wales. The short piece was a mass circulation email out that showed the outcomes of the 3rd International Cerebral Palsy Conference held in Sydney in February 2009.

The presentation is a combination of stills provided and motion graphics. The piece is designed to reflect the brand of the various foundations related to the Spastic Centre by integrating the colours featured in the hand logo.

Livewire productions is an innovative media house, no job is too big or small.
